About Cibus

Cibus is a leader in developing traits (characteristics) that address critical productivity, yield and sustainability challenges. Cibus' proprietary high-throughput gene-editing technologies drive its long-term focus on productivity traits for farmers for the major global row crops. Cibus is not a seed company. It is a technology company that uses its gene editing technologies to develop plant traits at a fraction of the time and cost of conventional breeding and to license them to customers in exchange for royalties, leveraging its strong partnerships across the seed industry as a whole.
