### **About Cibus**

Cibus (Nasdaq: CBUS) is a technology company that helps farmers grow more food with fewer inputs. Using its proprietary platform, Cibus improves a seed company's best crop varieties by making precise changes to the plant's own genes, with no foreign DNA added, then licenses those improvements back to the customer in exchange for royalties. Cibus is not a seed company. It develops crop traits at a fraction of the time and cost of conventional breeding, with a focus on higher yields, better quality, and reduced chemical use.
